## INDEPENDENT AUDITOR'S REPORT

To the Selectmen and Town Manager  
Town of Sebago  
Sebago, Maine

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Town of Sebago, Maine, (the Town), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Sebago, Maine, as of June 30, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-11 and 34-36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Sebago, Maine's, basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S  
**DISCUSSION AND ANALYSIS (UNAUDITED) June 30, 2015**

As Deputy Treasurer of Sebago, I offer the readers of the Town of Sebago's financial statements this narrative overview and analysis of the financial activities of the Town of Sebago for the fiscal year ended June 30, 2015.

**Financial Highlights**

- The assets of the Town of Sebago exceeded its liabilities at the close of the most recent fiscal year by \$6,079,914 per Statement 1 (Net Position). Of this amount, \$3,673,231 (unrestricted Net Position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total Net Position increased by \$409,315.
- As of the close of the current fiscal year, the Town of Sebago's governmental funds reported combined ending fund balances of \$3,424,777, a decrease of \$215,978. Of this, \$1,803,955 is available for spending at the Town's discretion (unassigned fund balance) in the general fund.
- At the end of the current fiscal year, the net change in fund balance of the general fund was \$81,571 or (1.66%) of total general fund expenditures.

**Overview of the Financial Statements**

This report is intended to serve as an introduction to the Town of Sebago's basic financial statements. The Town of Sebago's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

**Government-Wide Financial Statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Sebago's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the Town of Sebago's assets and liabilities, with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the Town of Sebago is improving or deteriorating.

The *Statement of Activities* presents information showing how the Town's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (eg. uncollected taxes and earned but unused vacation leaves).

Both of the government-wide financial statements distinguish functions of the Town of Sebago that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town of Sebago include general government, public safety, public works, recreation and culture, welfare and social services. The Town does not currently report any business-type activities.

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the significant funds, but not on the Town as a whole. Some funds are required to be established by State law and by bond covenants. However, the Board of Selectmen establishes many other funds to help it control and manage money for particular purposes.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Sebago maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, which is considered to be a major fund. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The Town of Sebago adopts an annual appropriated budget for its general fund. Budgetary comparison, a required supplementary information, has been provided for the general fund to demonstrate compliance with this budget.

Basic governmental fund financial statements can be found on later pages of this report.

**Fiduciary Funds** These activities are omitted from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information.** The combining statements referred to earlier in connection with non major governmental funds are presented immediately following the notes to the financial statements.

**Government-Wide Financial Analysis.** As noted earlier, Net Position may serve over time as a useful indicator of a government's financial position.

Total Net Position	<u>\$ 6,079,914</u>	<u>\$ 5,670,599</u>

By far, the largest portion of the Town's assets is its capital assets and cash; the largest portion of its liabilities relates to expenses and deferred inflows of resources. Sebago saw a 7% increase in assets during the 2015 fiscal year. The Town of Sebago uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Sebago's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

### 2015 EXPENDITURES BY FUNCTION

*Chart B – June 30, 2015 Expenditures by Function*

### **Analysis of Overall Financial Position and Results of Operations**

Sebago's revenues exceeded expenses by \$409,315 as expenses were carefully controlled and revenues exceeded expectations. Factors that affect revenues are:

- Excise taxes continued its historic trend of outperforming estimates by \$75,784.
- Building Permits / Code Enforcement fees exceeded budget by \$11,149.
- Shortfalls, however, offset some of the above gains, most notably in Real Estate Interest and Tree Growth Reimbursement.

Factors which affected expenditures are as follows:

- General Assistance expenses were down
- A long stormy winter (increase wages, sand/salt)
- Rolled over funds from the paving account
- Heating costs were slightly lower than budget.
- Increased the CIP budget.

### **Significant Individual Fund Balances, Transactions and Changes in Fund Balance**

The Town finished the year with a general fund balance of \$1,985,910, an increase of \$81,571. The Town has steadily maintained a sufficient unassigned fund balance to sustain governmental operations for a period of two to three months, while also maintaining reserve accounts for future capital and program needs.

### **Analysis of Significant General Fund Budget Variances**

Revenues are budgeted conservatively. This will sometimes result in revenues exceeding budget. The largest revenue after taxes is excise tax. Excise tax is difficult due to the ever changing economy and state legislation.

### **Significant Capital Assets**

At the end of June 30, 2015, the Town had \$2,406,683 invested in capital assets, net of accumulated depreciation and related debt.

**Table 3**

### **Long-Term Debt Activity**

At year-end the Town had a total of \$3,344 of capital lease purchase obligations for photocopier equipment.

The following is a summary of capital lease obligations of the town for the year ended June 30, 2015.

More detailed information about our long-term liabilities is included in the notes to the financial statements.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

Every year the Town's Board of Selectmen, Town Manager, and Budget Committee continue to monitor and evaluate local economic conditions keeping the following factors in mind:

- Changes in the State Education funding formula and the ever rising cost of education
- Continuing reductions in State Revenue, Urban Rural Initiative Program (URIP) and other intergovernmental revenues
- Continued bankruptcy and tax liens
- Energy costs.

### **CONTACTING THE TOWN'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Town Manager, James M. Smith III or Deputy Treasurer, Michele A. Bukoveckas at 406 Bridgton Road, Sebago, Maine, 04029 or by phone at (207) 787-2457.

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period:

Capital Outlay	781,940
Depreciation	(179,261)
	602,679

Capital lease proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which proceeds exceeded repayments in the current period:

Capital Lease Repayment	1,503

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES**

**The Reporting Entity**

The Town of Sebago, Maine, incorporated in 1826 operates under a Town Manager-Selectmen form of government. The Board of Selectmen consists of five members elected by the registered voters for three year staggered terms. The financial statements of the Town of Sebago conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles (GAAP) for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the Town are discussed below.

**Principles Determining Scope of Reporting Entity**

In evaluating the Town as a reporting entity, management has addressed all potential component units for which the Town may or may not be financially accountable and, as such, be includable within the Town's basic financial statements. In accordance with GASB, the Town (the primary government) is financially accountable if it appoints a voting majority of the organizations governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the Town. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Based on the application of these criteria, there are no other entities within the Town that should be included as part of these basic financial statements.

**Basis of Presentation**

*Basic Financial Statements—Government-Wide Financial Statements*

The government-wide financial statements, comprised of the statement of net position and the statement of activities, report information on all of the non-fiduciary activities of the Town. Governmental activities are normally supported by taxes and intergovernmental revenues.

The government-wide statement of activities points out the extent to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. The Town has elected not to allocate indirect costs among the programs or functions. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not classified as program revenues are presented as general revenues. The comparison of program revenues and direct expenses identifies the extent to which each program is self-financing or draws from the general revenues of the Town.

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Basis of Presentation (Continued)**

*Basic Financial Statements—Government-Wide Financial Statements (Continued)*

Separate financial statements are provided for governmental funds and fiduciary funds. Fiduciary funds are excluded from the government-wide financial statements. The focus is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. GASB sets forth minimum criteria, (percentages of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined), for the determination of major funds.

The Town's major governmental fund is the General Fund. The General Fund accounts for all financial resources of the Town, except those required to be accounted for in another fund. The non-major funds are combined in the "Other Governmental Funds" column in the fund financial statements.

*Basic Financial Statements—Fund Financial Statements*

The Town uses individual funds to maintain its financial records during the year in order to aid financial management and to demonstrate legal compliance. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are reported by generic classification within the financial statements.

*Governmental Funds*

Governmental funds are identified as either general, special revenue, or capital projects funds based upon the following guidelines.

The General Fund is the operating fund of the Town and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific sources (other than major capital projects or expendable trusts) that are legally restricted to expenditures for specified purposes.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

*Fiduciary Funds*

Private-Purpose Trust Funds are used to account for assets received by the Town and held in a trustee capacity. Non-expendable trust funds are those whose principal must be preserved intact. Expendable are those whose principal and income may be expended in the course of their designated operations.

Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurements or results of operations. These funds are not incorporated into the government-wide statements.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements  
June 30, 2015

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Basis of Accounting**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

*Accrual*

Governmental activities in the government-wide financial statements and the fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

*Modified Accrual*

Governmental funds financial statements are presented on the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recorded in the accounting period in which they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or 60 days thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized in the accounting period when the related liability is incurred. However, debt service expenditures, as well as certain compensated absences, claims and judgments, are recorded only when the payment is due. Allocation of costs, such as depreciation, is not recognized in the governmental funds.

**Financial Statement Accounts**

*Cash and Investments*

The Town's cash and investments are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Town policy is that deposits can only be made in financial institutions insured by the FDIC. Investments are authorized in obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, certain certificates of deposit and certain money market funds. The Town invests its funds in an effort to ensure preservation of capital, remain sufficiently liquid and attain a reasonable market rate of return. Investments are reported at fair value. Money market investments that have a remaining maturity at time of purchase of one year or less are stated at amortized cost.

*Interfund Transactions*

During the course of operations, transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due to/ due from other funds" on the balance sheet of the governmental funds and fiduciary funds. As a general rule, the effect of interfund activity is eliminated from the government-wide financial statements.

Operating transfers occur when the Town transfers budgeted resources between funds.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements  
June 30, 2015

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Financial Statement Accounts (continued)**

*Inventories of Supplies*

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet.

*Capital Assets*

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements.

Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost and depreciated over their estimated useful lives. Donated capital assets are recorded at their estimated fair value at the date of donation. Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives:

Buildings and Building Improvements – 40 years  
Vehicles and Equipment – 5 to 20 years  
Infrastructure – 10 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

The Town of Sebago has elected not to retroactively report their major infrastructure assets.

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures upon acquisition. Fixed assets are not capitalized and related depreciation is not expensed in the fund financial statements.

*Compensated Absences*

Pursuant to the terms of the personnel policies, vacation time is granted in varying amounts according to length of service. At June 30, 2015, the accrual for compensated absences was determined to be \$9,894, which has been included in the government-wide financial statements.

*Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of net position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resource (expense/expenditure) until then. The Town currently has no deferred outflow of resources.

In addition to liabilities, the statement of net position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. In the government-wide financial statements, the Town's deferred inflows of resources consist of prepaid property taxes. In the fund financial statements, due to differences in the modified accrual basis of accounting, deferred inflows also include deferred (unavailable) property taxes.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Financial Statement Accounts (continued)**

*Long-Term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums, and discounts, if material to basic financial statements, are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt is reported as other financing resources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

**Net Position and Fund Balance Classifications**

Net position is required to be classified into the following three components:

*Net Investment in Capital Assets* - This component consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

Capital Assets	\$ 4,240,221
Accumulated Depreciation	<u>(1,830,194)</u>
Net Capital Assets	2,410,027
Capital Leases	<u>(3,344)</u>
Net Investment in Capital Assets	<u>\$ 2,406,683</u>

*Restricted* - This component consists of constraints placed on the use of net position which are either externally imposed by debt covenants, grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.

*Unrestricted* - This component consists of net position that does not meet the definition of “restricted” or “net investment in capital assets”.

**Fund Balance**

In the fund financial statements, governmental fund balance is presented in five possible classifications. The classifications are hierarchical and are based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. The classifications are as follows:

*Nonspendable* - includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact.

*Restricted* - represents those portions of fund equity that have externally enforceable legal restrictions.

*Committed* - describes the portion of the fund balance that represents resources whose use is constrained by limitations that the government imposes upon itself at its highest level of decision making and that remain binding unless removed in the same manner.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements  
June 30, 2015

**NOTE 1: SUMMARY OF ACCOUNTING POLICIES (Continued)**

**Fund Balance (continued)**

*Assigned* - reflects the amounts constrained by the town's "intent" to be used for specific purposes, but are neither restricted nor committed. The Board of Selectmen and Town Manager have the authority to assign amounts to be used for specific purposes.

*Unassigned* - represents amounts that are available for any purpose.

The Town has no formal revenue spending policy for programs with multiple revenue sources. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

*Estimates*

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets, liabilities, the disclosure of contingent liabilities, and the reported revenues and expenses. Actual results could differ from these estimates.

**NOTE 2: DEPOSITS AND INVESTMENTS**

**Deposits**

*Custodial Credit Risk*

Custodial credit risk is the risk that, in the event of a bank failure, the Town will not be able to recover the value of its deposits and investments that are in the possession of an outside party. The Town has a deposit policy for custodial credit risk. As of June 30, 2015, the Town reported deposits of \$(32,004) with a bank balance of \$261,878. The Town's bank balance was covered by FDIC insurance up to \$250,000 and \$12,878 was exposed to custodial risk. The balance exposed to custodial credit risk was collateralized by U.S. Government backed obligations of U.S. Government agencies and corporations held by the pledging bank, but not in the Town's name.

**Investments**

*Custodial Credit Risk*

Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. Agencies and repurchase agreements. The Town has an investment policy that does not further limit its investment choices. Generally, the Town invests such excess funds in repurchase agreements.

For investments, custodial credit risk is the risk that, in event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of the outside party. With the exception of U.S. Treasury Securities and authorized pools, the Town's investment policy states that no more than 50% of the Town's total investment portfolio will be invested in a single security type or with a single financial institution. As of June 30, 2015, all of the Town's investment balance of \$ 3,211,091 was subject to custodial credit risk. The investments were collateralized by U.S. Government backed obligations of U.S. Government agencies and corporations held by the pledging bank, but not in the Town's name.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements  
June 30, 2015

**NOTE 2: DEPOSITS AND INVESTMENTS (Continued)**

**Investments (continued)**

At June 30, 2015, investments consisted of the following:

	<u>Fair Value</u>	<u>Less than 1 Year</u>
Repurchase Agreements	\$ 3,211,091	\$ 3,211,091

**Concentration of Credit Risk**

All of the Town's investments are in repurchase agreements, which are considered an authorized pool per the Town's investment policy.

**Credit Risk**

All of the repurchase agreements are backed by governmental obligations that are rated "AAA" and, should a residential mortgage borrower default, the agencies themselves would guarantee repayment of principal.

**NOTE 3: PROPERTY TAX**

The Town's property taxes for the July 1, 2014 to June 30, 2015 fiscal year were committed on September 2, 2014. Taxes were due semi-annually on November 5, 2014 and May 5, 2015. Unpaid taxes are charged interest of 7.0% per annum. The tax commitment was based on the April 1, 2014 assessed real estate and personal property values totaling \$361,055,480.

The following summarizes the levy:

**VALUATION AND ASSESSMENT**

<b>VALUATION</b>	
Real Estate	\$ 354,648,641

Abatements	<u>4,178</u>
	<u>4,379,339</u>
TAXES RECEIVABLE-JUNE 30, 2015	<u><u>\$ 423,068</u></u>

The Town is permitted by the laws of the State of Maine to levy taxes to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$3,291 for the year ended June 30, 2015.

Property taxes levied for the fiscal year are recorded as receivables at the time the levy is made. In the governmental funds, the receivables collected during the year and during the first sixty (60) days after June 30, 2015 are recognized as revenues. The remaining receivables estimated to be collectible subsequent to the sixty (60) day period are recorded as deferred revenues.

The variance between actual property tax revenues and budgeted property tax revenues (Exhibit 1) represents supplemental taxes of \$803.

The tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid. Property acquired by foreclosure for non-payment of taxes is recorded at the amount of expired tax liens plus the cost involved in foreclosure. Liens and any current taxes on the same parcel are not included as part of the tax acquired property account until expiration of statutory time limits.

Public Safety	46,640
Public Works	101,301
Health, Sanitation and Welfare	<u>7,096</u>
Total Depreciation	<u>\$ 179,261</u>

The District leases a capital asset under agreement that is classified as capital lease. The cost of capital asset under capital lease is included in the statement of net position as capital assets and was \$7,584 at June 30, 2015. Accumulated amortization of the leased capital asset at June 30, 2015 was approximately \$4,424. Amortization of asset under capital lease is included in depreciation expense.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements  
June 30, 2015

**NOTE 5: OVERLAPPING DEBT**

The Town's proportionate share of Cumberland County's and Maine School Administrative District No. 61's bonded debt is not reported in the Town's financial statements. Debt service is included in the annual County and School assessments to the Town. The Town's share is 0.96% (\$357,018) of Cumberland County's outstanding debt of \$37,125,000 and 14.14% (\$1,893,369) of Maine School Administrative District No. 61's outstanding bonded debt of \$13,389,024.

**NOTE 6: CONTINGENT LIABILITY**

**State and Federal Grants**

The Town participates in state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Town has not complied with the rules and regulations governing the grants, refunds of any money received may be required. In the opinion of the Town, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

**Litigation**

The Town is subject to certain legal proceedings and claims which arise in the ordinary course of conducting its activities. In the opinion of management, the Town has defensible positions and any ultimate liabilities are covered by insurance or will not materially affect the financial position of the Town.

**NOTE 7: CAPITAL LEASE OBLIGATIONS**

The Town has a capital lease agreement for a copier. The copier lease expires in July 2017. Annual payments are made in the amount of principal and interest due on the debt.

The following is a summary of capital lease transactions of the District for the year ended June 30, 2015:

	<b>Year Ending June 30,</b>	<b><u>Amount</u></b>
	2016	\$ 1,680
	2017	1,680
	2018	<u>140</u>
Total minimum lease payments		3,500
Less: Amounts representing interest		<u>(156)</u>
Present value of net minimum lease payments		3,344
Less: Current maturities of capital lease obligations		<u>(1,568)</u>
Long-term capital lease obligations		<u>\$ 1,776</u>

In accordance with 30 MRSA, Section 5061, as amended, no municipality shall incur debt for specified purposes in excess of certain percentages of the State valuation of such municipality. Additionally, no municipality shall incur debt in the aggregate in excess of 15% of its State valuation. The Town's 2015 State Valuation is \$378,700,000 and, therefore, its aggregate debt limit is \$56,801,656.

**TOWN OF SEBAGO, MAINE**  
Notes to the Basic Financial Statements

**NOTE 8: RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters for which the Town either carries commercial insurance or participates in a public entity risk pool. Currently, the Town participates in a public entity risk pool sponsored by the Maine Municipal Association.

Based on coverage provided by the pool, as well as coverage provided by commercial insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded at June 30, 2015.

**NOTE 9: INTERFUND ACTIVITY**

Interfund balances at June 30, 2015 consisted of the following:

	<b><u>Interfund Receivables</u></b>	<b><u>Interfund Payables</u></b>
General Fund	\$ 22,166	\$ 15,245
Non Major Governmental Funds:		
Special Revenue Funds	14,690	20,886
Capital Project Funds	<u>555</u>	<u>1,280</u>
Total	<u>\$ 37,411</u>	<u>\$ 37,411</u>

The purpose of the interfund account is to charge revenues and expenditures to the appropriate fund when that activity is accounted for through the centralized checking account.

Interfund transfers for the year ended June 30, 2015 consisted of the following:

	<b><u>Transfers In</u></b>	<b><u>Transfers Out</u></b>
General Fund	\$ -	\$ 389,178
Non Major Governmental Funds:

**NOTE 11: RETIREMENT PLAN**

The Town offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 408(p) on November 14, 2000. The plan, available to eligible Town employees, permits them to defer a portion of their salary until future years. The Town matches up to 3% of each qualified employees' earnings. An employee who regularly works 20 hours per week and has completed a period of 30 days of consecutive employment may become a participant in this plan. Currently seven employees participate in this plan.

Assets of the plan are placed in trusts for the exclusive benefit of participants and their beneficiaries. Accordingly, the assets and the liability for the compensation deferred, including earnings on plan assets, are not included in the Town's financial statements.

In addition, the Town participates in Medicare and the Social Security Retirement Program. The Town's contribution amounted to \$42,064, for the year ended June 30, 2015.

**NOTE 13: SUBSEQUENT EVENTS**

In preparing these financial statements, the Town has evaluated events and transactions for potential recognition or disclosure through December 16, 2015, the date the financial statements were available to be issued.

Notes to the Required Supplementary Information  
June 30, 2015

**NOTE 1: BUDGETARY ACCOUNTING**

Budgets are adopted for the general fund only on a basis consistent with accounting principles generally accepted in the United States of America. Formal budgetary integration is employed as a management control device during the year for the general fund. The budget is presented on the modified accrual basis of accounting, which is consistent with U.S. generally accepted accounting principles.

The following procedures were followed in establishing budgetary data reflected in the financial statements:

In the second half of the last fiscal year, the Town prepared a budget for this fiscal year beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.

After giving public notice of the meeting, the inhabitants of the Town voted in June for the purpose of adopting the proposed budget.

The budget was adopted subsequent to the vote by the inhabitants of the Town.

**NOTE 2: BUDGETED USE OF SURPLUS**

During the year ended June 30, 2015, the Town budgeted to utilize \$243,356 of prior year unassigned fund balance as a budgeted use of surplus.

**NOTE 3: EXPENDITURES IN EXCESS OF APPROPRIATIONS**

During the year, expenditures exceeded appropriations in article 5 of the annual Town meeting:

	Amount Over <u>expended</u>
Health and Sanitation	<u>\$ 4,386</u>
